**FREE PARKING:** Cintas Center, C1-C5 Lots (1624 Herald Ave., Cincinnati 45207)  
Directions: <http://www.cintascenter.com/directions/index.cfm>

About the PRESENTATION: This presentation is designed to assist caregivers and family members in learning effective strategies to provide care for a person with dementia. The behavior of persons living with dementia can change from one moment to the next. Experience and research have shown that active engagement in functional tasks can be enhanced through appropriate support from caregivers. By changing ways of communicating, sensory input, and timing of activities caregivers can improve the way in which daily tasks are completed by the person with dementia. The goal of the session is to help caregivers learn practical strategies to assist a person with dementia. Caregivers will be able to immediately apply these strategies when they provide care for a person with dementia.

About the PRESENTER: **Teepa Snow** lives in central North Carolina. She is an occupational therapist with over 28 years of geriatric experience. Teepa currently works as a specialist for dementia care and education. She has clinical appointments with Duke University's School of Nursing and UNC-Chapel Hill's School of Medicine. Teepa is widely known for her exceptional presentation style. For more information visit: [www.teepasnow.com](http://www.teepasnow.com).
