**Bureau of Disability Determination (BDD)**

P.O. Box 359001  
Columbus OH 43235-9001

**Area(s) Served:**  
Statewide

**Contracted Provider:** Not Applicable

**Description:**

The Role of the Bureau of Disability Determination

Once the application for disability benefits, or case is taken at the local office, it is forwarded to the Bureau of Disability Determination to assess whether the medical requirements are met for disability. Under the rules of Social Security, a person must be found unable to perform any type of work for a period of at least 12 months due to a physical, mental, or combination of impairments.

Under the Social Security Disability Program, an applicant cannot be found "25 percent" disabled as may be the case under the rules for worker’s compensation or Veteran’s benefits. The Social Security Administration uses a "Listing of Impairments" to guide disability assessment. This set of criteria is based on common types of medical conditions, such as arthritis, heart disease, and cancer. While every medical condition is not covered in the Listings, it does provide general guidance to assess them.
When the case is received by the Bureau of Disability Determination, it is assigned to a Disability Claims Adjudicator. This person reviews the application materials and may contact the applicant, or claimant, to clarify issues and obtain further information regarding treatment and limitations due to his or her impairments. The adjudicator then contacts relevant medical sources in order to obtain documentation regarding the impairments. At times, it is necessary to schedule consultative exams for claimants. This examination provides functional information to help determine what limitations may result from an individual’s impairment(s), and is not for purposes of providing treatment. Once sufficient medical evidence is obtained the adjudicator, using the Listings as a guide, will determine if the individual qualifies for disability.

**More about Cincinnati Area Senior Services:**

**Transportation**

CASS provides two kinds of vital transportation for those age 60 and older:

- **Senior Transport** - Seniors who are unable to drive and have no other means of reliable transportation can become unnecessarily homebound and isolated. Having access to essential services such as medical care and grocery shopping is a critical component in making it possible for a senior to remain living at home. Transportation to provided to neighborhood senior center, weekly grocery shopping trips, and for group outings, social and recreational events. Contact the CASS transportation department at (513) 721-0375.

- **Medical Transport** in wheelchair-equipped vans to medical appointments, clinics, and dialysis units is a crucial link for those confined to their home. CASS provides door-to-door medical trips, many for non-ambulatory people. Seniors must qualify under the PASSPORT or ESP programs. Contact to Council on Aging at (513) 721-1025 for information.

**Guardianship**

**Guardianship Assistance Program (GAP):** The senior who is both very compromised and completely alone is a special, and often desperate case. Typically a group home or nursing home resident age 60 or older, this client may require a court-appointed Guardian to advocate for his or her interests, make health care decisions, and provide the comfort of human contact. Guardianship is a legally defined process. While it may pertain to the individual, the estate, or both, CASS’s program is solely involved in the care and management of the person. GAP recruits and trains guardians for this compassionate task, providing legal and social services support. CASS also holds quarterly training sessions to monitor program quality and assure dignity in the face of decline. Guardianship services are available in Hamilton County only, although volunteers can live outside Hamilton County.

Description:
On November 17, 1943, the Mayor’s Friendly Relations Committee (MFRC) was created by resolution of Cincinnati City Council. The resolution provided that the Mayor be authorized to appoint an independent committee representing various racial, industrial, religious, and other groups, for the purpose of studying the problems connected with the promotion of harmony and tolerance, and acting as an advisory committee for the solution of such problems. The Committee, the second group of its type established in the United States, was composed of 36 trustees appointed by the Mayor and about 150 citizens.

After much transition and several years of struggle over the reorganization of the MFRC, an agreement was reached on March 17, 1965, and City Council adopted Ordinance 112-1965 providing for the establishment of the Cincinnati Human Relations Commission (CHRC).

CHRC has continually been a springboard and resource to other human relations related groups such as the Urban Appalachian Council, Martin Luther King, Jr. Coalition, community and resident councils, and individual citizens. CHRC, a trouble-shooter for human rights issues, continues to operate under a City ordinance as an independent, non-profit organization. CHRC serves as a catalyst to unify individuals and groups to improve human relations in the Greater Cincinnati area.

Hamilton County

Description:
(CMHA) is a non profit (pseudo-governmental) entity established primarily for the purpose of developing and/or operating affordable housing according to rules established by the state and HUD. CMHA as a public housing authority is established under state law and is eligible to develop and operate public housing.

CMHA public housing provides affordable shelter for low income families either citizens or eligible immigrants. CMHA's public housing serves mostly very low-income tenants who pay no more than 30 percent of their adjusted income for rent.

CMHA also administers the tenant-based Section 8 program known also as the Housing Choice Voucher Program. This section 8 voucher program helps very low income individuals and families rent safe and decent housing on the open market. This program pays the landlord the difference between what the individual/family can afford and the actual rent for the unit. In this program payment is made to the landlord on behalf of the qualified person and is not tied to a subsidized housing project. This form of assistance is portable and stays with the qualified person in the form of a Section 8 certificate or voucher.

- $480 for each dependent
- $400 for any elderly family, or a person with a disability
- Some medical deductions for families headed by an elderly person or a person with disabilities.

A CMHA representative determines if any of the allowable deductions should be subtracted from the applicant’s annual income.

**Description:**

Lifeline Crisis Chat is a service of the National Suicide Prevention Lifeline in partnership with CONTACT USA. It is the first service of its kind where crisis centers across the United States have joined together to form one national chat network that can provide online emotional support, crisis intervention, and suicide prevention services. The chat specialists are there to listen and support you through whatever difficult times you may be facing.

Visitors logging on to chat will interact with a chat specialist who will give them space to talk about what they are upset about, exploring feelings and thoughts associated with the crisis. Chat specialists will also assess for suicide risk and work collaboratively with the visitor to come up with a safety plan which addresses positive coping strategies and next steps. The specialists who answer
chats have had thorough training in crisis and suicide intervention, as well as specific topics such as youth issues.

If you cannot reach a Lifeline Crisis Chat specialist, they recommend that you call 1-800-273-TALK (8255) for emotional support, or if you are in imminent danger, dial 9-1-1.

Description:

Are you struggling with a health condition such as diabetes, high blood pressure, heart disease, fibromyalgia, or arthritis?

The Healthy-U Chronic Disease Self-Management Program is proven to improve quality of life -- and save money by reducing health care expenses. It’s free to adults of any age with any on-going health condition and/or their caregivers.

Healthy U is a small group workshop that focuses on problem solving and building self-confidence to help people maintain their health and manage chronic health conditions. Many people struggle to manage symptoms of chronic disease -- especially older adults who are more likely to be living with more than one chronic illness. In 2009, the Surgeon General estimated that 50% of older Americans were living with at least two chronic health conditions (at least 80% had one).

The workshops are led by trained facilitators -- usually non-health professionals who have a chronic disease themselves. Participants meet for six weeks, once a week, for two and a half hours, and learn to control their symptoms through: relaxation techniques, diet and exercise changes, managing sleep and fatigue, using medications correctly, and communication with family members, friends and health care providers.

Healthy U, developed at Stanford University as the Chronic Disease Self Management Program, is successful because it was developed with input from people who have chronic diseases themselves. COA is offering the workshop locally through a grant from the Ohio Department of Aging and the federal Administration on Aging.

For information about workshop dates and locations, click here or call (513) 721-1025 and ask for Healthy-U.

Council on Aging is looking for individuals and organizations who are interested in offering the Healthy-U program. Healthy-U leaders are either adults (preferably with a chronic health condition) or professionals such as nurses, care managers, health educators, etc. Healthy-U leaders:

- receive specialized training and easy-to-use instructional materials
- learn new skills and gain valuable experience in program delivery
- experience the satisfaction of changing lives with a proven effective program

Home Delivered Meals
Council on Aging of Southwestern Ohio
Cincinnati OH 45246

Area(s) Served:
Butler County,
Nationwide,
Warren County,
Clermont County,
Statewide,
Clinton County,
Hamilton County

Description:
For many people, getting at least one nutritious meal a day can be a challenge. Physical or cognitive disability, illness, and lack of support or transportation are common barriers that prevent many people from preparing food or traveling to a group meal location such as a church or senior center.

To offer access to nutritious meals, Council on Aging (COA) provides home‐delivered meals through 1) PASSPORT (Ohio’s Medicaid waiver home care program), 2) locally-funded Elderly Services Programs, and 3) the Ohio Home Care Waiver program (Ohio Medicaid waiver program for people under age 60). Each year, COA provides more than 2 million meals to approximately 10,000 homebound older adults in Butler, Clermont, Clinton, Hamilton and Warren counties.

Eligibility
Eligibility for home‐delivered meals is determined by nutritional need and criteria are derived from funding sources. To qualify for home‐delivered meals, you must meet all of the following criteria:

- age 60 or older (except for the Ohio Home Care Waiver where there is no age criterion)
- unable to prepare your own meals
- unable to participate in a congregate nutrition program because of physical or emotional difficulties
- lack another meal support service in the home or community

Home‐delivered meals may also be provided to the spouse of an eligible person, who lives in the home of the eligible person, regardless of the spouse’s age or abilities. This is determined on a case‐by‐case basis.

Meals are prepared by one of our quality meal providers and delivered directly to your door by a friendly volunteer or staff person. Delivered meals can be hot, chilled or frozen and can be prepared to meet special dietary needs (diabetic, dietary restrictions, etc.).

Cost
Home‐delivered meals through Council on Aging are free of charge. However, our funding does not cover the full cost of preparing and delivering meals. Donations allow us to reach out to more people and help with the costs for preparation and delivery. Donations of any size are accepted and appreciated. Your meal provider will explain how you may make a donation.

How to Enroll
For information about receiving home‐delivered meals, call:

Description:
Led by the Centers for Medicare & Medicaid Services (CMS), the QIO Program is one of the largest federal programs dedicated to improving health quality at the local level. The Program aligns with the six CMS Quality Strategy goals:

1. Make care safer by reducing harm caused in the delivery of care.
2. Ensure that each person and family are engaged as partners in their care.
3. Promote effective communication and coordination of care.
4. Promote the most effective prevention and treatment practices for the leading causes of mortality, starting with cardiovascular disease.
5. Work with communities to promote wide use of successful interventions to enable healthy living.
6. Make quality care more affordable for individuals, families, employers, and governments by developing and spreading new health care delivery models.

QIOs work with local health care providers, serving as change agents, conveners, and collaborators. They form groups of health care providers and other stakeholders to learn from one another and to use that knowledge in making care more patient-centered, safer, and coordinated. Because QIOs share best practices with one another, providers benefit from the experience of their peers across the country, which further accelerates improvement. QIOs also help Medicare beneficiaries exercise their right to high-quality health care. Patients benefit from the QIO Program's charge to address beneficiaries' quality of care complaints and discharge appeals as well as from the QIO improvement initiatives those complaints and appeals inspire.

Through its national network of independent, trusted organizations, the QIO Program is collaborating with providers at all levels of clinical performance to improve health quality in five key areas:

? Keeping the patient at the center
? Preventive care
? Improving care coordination
? Better data for better care
? Safer care

Kinship care represents the most desirable out-of-home placement option for children who cannot live with their parents. It offers the greatest level of stability by allowing children to maintain their sense of belonging and enhances their ability to identify with their family’s culture and traditions.

Wards are individuals who have no immediate family able or willing to help them or they have mental limitations that impair their ability to make competent decisions. They typically live in nursing homes, group homes and in other supported living environments. Many times the guardian may be the only person who visits outside of medical professionals or caregivers.

Reverse Mortgage Counseling

NCOA’s Reverse Mortgage Counseling Services Network is one of seven national counseling groups approved by the U.S. Department of Housing & Urban Development.

NCOA counselors are exam-qualified aging services professionals who can help you:

- **Evaluate the pros and cons** of a reverse mortgage for your situation.
- **Apply for public and private benefits** that can help you pay for needs like home energy, meals, and medications.
- **Find services in your community** that can help you stay independent longer.

There is no fee unless you choose to apply for a reverse mortgage. NCOA also waives the $135 counseling fee for older adults who:

- Are facing financial challenges such as foreclosure.
- Have modest incomes under $20,000 for single homeowners and under $30,000 for couples.

To schedule a counseling session, call toll-free (800) 510-0301.

For more information, call Council on Aging at (513) 721-1025.

Caring for a loved one can be hard work. However, the National Family Caregivers Association says that people who recognize themselves as caregivers are more proactive, engaged and confident. As a result, they provide better care and are able to do so longer, even as their loved one’s care needs increase. Caregivers who access and use support services also report fewer negative emotions, such as depression, anxiety and anger. By seeking and accepting help, along with planning for the future, you can provide the care your loved one deserves while also making sure your needs are taken care of.
Through the National Family Caregiver Support Program, your area agency on aging and other local providers are ready to assist you with supports that may include:

- Training, resources, information and support groups;
- Respite care, adult day and medical alert services;
- Personal care, chore services and home delivered meals;
- Yard work and home repairs;
- Durable medical equipment and home modifications; and
- More.

Contact the area agency on aging serving your community for information and referral, as well as a free in-person assessment to identify your needs and link you to available resources.

National Healthcare Decisions Day

Area(s) Served: Nationwide

http://www.nhdd.org
Phone: N/A
Phone Extension: N/A
Contracted Provider: Not Applicable

Description:

This website provides access to helpful information and forms to help individuals and families in planning for their healthcare needs and wishes.

Mission

National Healthcare Decisions Day (NHDD) exists to inspire, educate and empower the public and providers about the importance of advance care planning. NHDD is an initiative to encourage patients to express their wishes regarding healthcare and for providers and facilities to respect those wishes, whatever they may be.

Overview

NHDD exists as a 50-state annual initiative to provide clear, concise, and consistent information on healthcare decision-making to both the public and providers/facilities through the widespread availability and dissemination of simple, free, and uniform tools (not just forms) to guide the process. NHDD entails 50 independent, but coordinated, state and local events (necessitated by the difference in state laws and dynamics) supported by a national media and public education campaign.

In all respects, NHDD is inclusive and brings a variety of players in the larger healthcare/legal/religious community together to work on a common project, to the benefit of patients, families, and providers. NHDD is not prescriptive; it allows for and fosters creativity.

A key goal of NHDD is to demystify healthcare decision-making and make the topic of advance care planning inescapable. On NHDD,
no one in the U.S. should be able to open a paper, watch TV, view the internet, see a physician or lawyer, or go to a healthcare facility without being confronted with the topic of advance care planning. Among other things, NHDD helps people understand that advance healthcare decision-making includes much more than living wills; it is a process that should focus first on conversation and choosing an agent.

**Vision**
Across the country, every healthcare facility will participate as the flagship venues for the public engagement. Other participating organizations/facilities that have their own physical spaces will engage in activities as well. Those organizations that lack physical spaces will work in conjunction with others or at non-healthcare venues (libraries, grocery stores, drug stores, etc.) to support the initiative. A variety of churches, synagogues, and mosques around the country will also support the effort by highlighting the importance of advance care planning with their congregations.

Ohio operates in a state supervised, county administered system; therefore, the Ohio Department of Job and Family Services, through the Office of Families and Children, oversees program implementation by developing policies and procedures to guide county agencies in program and service delivery. The Office of Families and Children provides technical assistance to county agencies and we monitor program implementation for compliance with federal and state laws, rules and policies.

Child welfare services (e.g. child protection, foster and kinship care, adoption, independent living) are provided by 88 public children services agencies which provide direct services to children and families. The public children services agencies were created by Ohio law and the structure of each is determined at the local level. Fifty-five (55) public children services agencies are located within the administrative body of the county departments of job and family services and 33 are separate children services boards.

Child care and adult protective services are provided by the county departments of job and family services, which were also created in Ohio law.

Golden Buckeye Card, Ohio Long-term Care Consumer Guide, and Ombudsman

Ombudsman

Ohio's Office of the State Long-term Care Ombudsman advocates for people receiving home care, assisted living and nursing home care. Paid and volunteer staff work to resolve complaints about services, help people select a provider and offer information about benefits and consumer rights.

Ombudsmen do not policy nursing homes and home health agencies. Instead, they work with providers, residents, their families and other representatives to resolve problems and concerns. Ombudsmen advocate a person-centered approach to meeting the needs and honoring the preferences of their clients. Ombudsmen link residents with services or agencies, offer advice on selecting long-term care providers, inform consumers about their rights and provide information and assistance with benefits and insurance.

Ohio Long-term Care Consumer Guide

The Long-Term Care Consumer Guide provides information about nursing homes and assisted living facilities to help consumers, family members and professionals search for the appropriate facility to meet an individual's needs. If you have determined that you need to move to a nursing or assisted living facility, you can start to compare facilities by using the Ohio Long-Term Care Consumer Guide.

For personalized assistance with long-term care options, please contact the long-term care ombudsman program at 1-800-282-1206.

The Golden Buckeye Card

Golden Buckeye is a discount card available for residents of Ohio, age 60 years and older and adults 18-59 with permanent and total disabilities. The program offers discounts on meals, entertainment, merchandise, and services at participating businesses throughout the state. Look for businesses that display a “Golden Buckeye Honored Here” window decal. There are nearly 20,000 participating merchants statewide.

Seniors who have an Ohio driver’s license, an Ohio ID card or are registered to vote will automatically be sent a card in the mail when they reach age 60. The packet will have information on how to use the Golden Buckeye Card. If you do not receive the Golden Buckeye Card when you become eligible, you can pick up a Golden Buckeye application at a local senior center or your local branch library.

**Ohio SMP Is Seeking Volunteers**

Did you know that one out of every seven Medicare dollars goes to fraud, waste and abuse? That Medicare fraud, waste and abuse cost you $13 billion?

To help address this national problem, Pro Seniors receives funding from the Administration on Aging for a Senior Medicare Patrol Project. Named Ohio SMP this project helps older Americans be wiser health care consumers. Seniors are taught to better understand their Medicare statements so they can detect potential fraud and errors and then take the appropriate steps to correct them.

At the heart of Ohio SMP are volunteers who are often retirees. They educate groups of older Americans about illegitimate Medicare practices or provide individual assistance to those questioning the accuracy of their statements. Presentations may be offered in the volunteer’s own community at churches, retired professional organizations, social groups and other locations where seniors gather. Project staff is also available to assist in coordinating presentations. In addition to the Administration on Aging, Ohio SMP has received strong support from the Council on Aging of Southwestern Ohio.

Anyone interested in volunteering may contact Jane Winkler at (513) 458-5523.

More about Pro Seniors
Founded in 1975, Pro Seniors is a non-profit organization that provides free legal and long-term care help to older adults. Pro Seniors offers Ohio residents age 60 and older the advice and information they need to solve their legal and nursing home, adult care facility, and home health care problems.

The Pro Seniors Mission
Pro Seniors is dedicated to helping older adults maintain their independence by empowering them, by protecting their interests, and by helping them access resources.

What Pro Seniors Offers
Pro Seniors Legal Hotline serves the State of Ohio. By calling the Pro Seniors Legal Hotline, Ohio residents age 60 or older can receive free assistance over the telephone with a variety of legal or long-term care problems. In Greater Cincinnati, the number to call is (513) 345-4160. In other parts of Ohio, call (800) 488-6070. Find more information on the Legal Hotline by selecting the Legal Hotline link.

Legal Help
If you have a legal problem that cannot be resolved over the telephone, the Legal Hotline may refer you to a Pro Seniors staff attorney if you live in Butler, Clermont, Clinton, Hamilton or Warren County. Pro Seniors’ staff attorneys handle problems that many private attorneys do not, such as Medicare, Medicaid, Social Security, other government benefits and pensions. The Legal Hotline may also refer you to a private attorney who has agreed to accept cases at a reduced fee for clients with limited income.

Legal Information Pamphlets
Pro Seniors provides pamphlets on a variety of subjects, from Medicare and Medicaid to consumer fraud and food stamps. You can find a complete list by selecting the Pamphlets link.

Long-term Care Ombudsmen
If you have a complaint about a nursing home, Pro Seniors can help. The long-term care ombudsmen will investigate and work with you to resolve your concerns about nursing facilities in Butler, Clermont, Clinton, Hamilton, and Warren counties. Pro Seniors ombudsmen also handle complaints about home care and adult care facilities. You can find more information about the Ombudsman program by selecting the Ombudsman link. The Ombudsman can also help you choose the right care facility to meet your needs.

Volunteer Opportunities
If you are interested in assisting older people and have a few free hours each week, Pro Seniors offers a variety of volunteer opportunities. For more information about our volunteer Ombudsman Program, select the Ombudsman link. If you are concerned about fraud and waste in the health care system, select the Ohio Seniors Fight Fraud link to learn more about volunteering for this project. If you are an attorney, you can assist callers to the Legal Hotline or conduct legal research. Paralegals can provide valuable support to our legal staff. Volunteers also are needed to assist staff with mailings and other office projects.

Social Security Disability

Disability under Social Security is based on your inability to work. You will be considered disabled if you cannot do work you did before and Social Security decides that you cannot adjust to other work because of your medical condition(s). Your disability also must last, or be expected to last, for at least a year or to result eventually in death. This is a strict definition of disability.

The program assumes that working families have access to other resources to provide support during periods of short-term disabilities, including workers’ compensation, insurance, savings and investments. You should apply at any Social Security office as soon as you become disabled.

You may file by phone, mail or by visiting the nearest office. Note that, while you may receive benefits dating back to the date you became disabled, they are limited to one year before the date you filed for benefits.

The Social Security and Supplemental Security Income disability programs are the largest of several Federal programs that provide assistance to people with disabilities. While these two programs are different in many ways, both are administered by the Social Security Administration and only individuals who have a disability and meet medical criteria may qualify for benefits under either program.

1. Social Security Disability Insurance (http://www.ssa.gov/dibplan/index.htm) pays benefits to you and certain members of your family if you are “insured,” meaning that you worked long enough and paid Social Security taxes.

When you apply for either program, SSA will collect medical and other information from you and make a decision about whether or not you meet Social Security’s definition of disability (http://www.ssa.gov/dibplan/dqualify4.htm).

Use the Benefits Eligibility Screening Tool (http://www.ssa.gov/best) to find out which programs may be able to pay you benefits.

If your application has recently been denied, the Internet Appeal (http://www.socialsecurity.gov/disability/appeal) is a starting point to request a review of our decision about your eligibility for disability benefits.

Description:
Legacy of Love
Touching Hearts at Home is a non-medical home care company that began in St. Paul/Minneapolis, Minnesota, in 1996. We see the opportunity to provide caregiving services to seniors as a privilege that must be met with great integrity, always putting empathy and the belief in the dignity of all people at the forefront of our work.

This philosophy originated from the natural compassion of Touching Hearts' founder Renae Peterson, who received such a strong example of caring, kindness and concern from her mother, Melvina Peterson, that it continues to fuel her passion in our work to this day, and that we refer to as our legacy of love.

The need for care and companionship has grown dramatically in recent years as needs continue to rise, and Renae & her staff
responded in 2007 by expanding through a network of franchised offices nationwide. Current family caregiver statistics show that more than 50 million people provide care for an ill, disabled or aging family member each year.

Description:
Railroad Retirement beneficiaries, like Social Security beneficiaries, are entitled to health care including Medicare options. They do, however, have different ways of applying for these benefits. Retiree’s do not have to take any action unless they are dissatisfied with their current coverage and wish to make a change. The Railroad Retirement Board acts in place of Social Security for its beneficiaries.

- Railroad retiree’s receive a Medicare number through the Chicago Railroad Retirement Board Office, not Social Security.
- Part A claims for railroad retirement beneficiaries are sent to Medicare for reimbursement, just as they are for Social Security beneficiaries.
- Palmetto Government Benefits Administration now processes all Part B medical insurance claims for physicians’ services to railroad retiree’s.
