- 1. Click on the options in the left-hand menu to view the following:
 - Assigned = Trips that you have agreed to perform for home52.
 - Accepted = Trips that you have right clicked and accepted to perform for home52.
 - Updated = Trips that have been updated or changes have been made by the client or staff within home52.
 - Arrived & Performed = Trips that you have completed for home52 during the day and have completion data.

2. Trip Data

Here you will see data on the trips based on the menu option you have selected (Assigned, Accepted, Updated, or Arrived & Performed).

3. All Runs

This menu lists the Run Names that you currently have with home52 Transportation. Click on the Run Name to view trip information for that Run.

4. Run Manifest

This section is where run data will appear based on the run selected.

Select the run you want to view and Double click and this will open up the itinerary for the run

Example – when selected:

Test Trans 123

The list of trips will populate for the run selected as demonstrated below:

The list of trips on the run manifest in Trip Broker is the same information that appears in DriverMate for the drivers, called the manifest.

Entering Trip Completion Data via Trip Broker:

Note that home52 requires the use of DriverMate in real time while drivers are transporting home52 clients. Entering completion data in Trip Broker should only be used as a last resort when there is an error, a system issue, or when otherwise approved by home52.

In the Gray bar above the run manifest, you will see the below information:

Test Transportation C	o - Test Trans 12	<mark>3</mark> - test 69 - Sedan [04-28-2021] MR. Bryan	Blue 8
Company name	Run Name	Vehicle	Driver	Trips

Once the driver performs a trip you will see the Schedule Status change from $(3^{rd}$ column from the left)

S = Scheduled to A = Arrived then to P = Performed

If by chance the driver is unable to use Drivermate you can complete the task for the driver by following the instructions below. The following definitions apply:

- Pullout = The location the Driver is pulling out from (garage location)
- Pickup = Where you are picking the client up from
- Dropoff = Where you dropped the client off at
- Pullin = The location the Driver is pulling into when done for the day (garage location)

Pullout		Un-scher	tule		
Pickup		Cancel /	No Show	▶ ora	a Stevens
Dropoff		Arrived		ora	a Stevens
Pickup		Perform.		ora	a Stevens
Dropoff		Booking	ora	a Stevens	

1. Right click on the Pullout row and select Perform, enter in the time (military) ONLY, and click ok.

This has allowed you to populate the Actual Depart time within Trip Broker.

Actual Depart

You will do this for each part of the trip that the user did not use Drivermate application. Please verify at the end of each day that you see P listed under the Schedule Status section:

l	Activity	Estimated Time	Schedule Status
	Pullout	09:52	Ρ
	Pickup	10:07	Р
	Dropoff	10:28	Р
	Pickup	15:59	Ρ
	Dropoff	16:18	Ρ
	Pullin	16:35	Р

If the above is not completed it will block the Driver from seeing their information within the DriverMate application the next day.
