

Own Your Future Geriatric Care Manager

Geriatric Care Manager

A Geriatric Care Manager is a health care professional (usually a social worker or nurse) with aging-related expertise and familiarity with services available to assist with care of older adults. They are especially useful for families who are assisting with care from a long distance. They usually start with a comprehensive assessment. Fees are charged to conduct the assessments, arrange services, and monitor services provided. Geriatric care managers can be hired on a one-time basis or to provide ongoing assistance.

Aging Life Care Association www.aginglifecare.org

The following is a listing of geriatric care managers from the membership of Aging Life Care Association (formerly the National Association of Professional Geriatric Care Managers). Visit the website for a directory of geriatric care managers in other states.
