Provider Quality Report: Introduction

Butler County ESP

Key changes to the Provider Quality Report (PQR)

General Changes:

- This report is organized by service metrics for three categories: billable units by provider, market share, and total number of clients by provider then by satisfaction metrics derived from SASIs (Service Adequacy and Satisfaction Instrument) for Homecare Assistance, Home Delivered Meals, and Medical Transportation.
- All county reporting has been expanded from a 1 year review period to 2 years. Quarters are representative of a calendar year (e.g. Quarter 1 is Jan.- March).
- As of Q3 2021 Cincinnati Area Senior Services(CASS) data will be included with Meals on Wheels of SW Ohio and Northern Kentucky due to a partnership merger.
- As of Q1 2022 Appendix B has been changed from "Providers Terminated" to "Provider Activity" listing all status changes made during the periods of review in this report. All Providers who recently had a change in status to one of the following: Terminated, Newly added, or placed 'On Hold' can be found here.
- As of Q2 2022, the Service Metrics page order has been rearranged to have Consumer Directed Care be followed by Home Care Assistance providers.

Billable Unit Conversions:

The unit of service definitions changed for several services with the implementation of CareDirector. For continuity of previous reporting, the Provider Quality Report (PQR) displays billable units to reflect hours, days, months, etc. and not in the increments currently billed in CareDirector. The chart below shows the conversion rates per service.

Service Rate Conversions from CareDirector Billing to Provider Quality Report		
Service	Current CareDirector Billing Unit Definition	Unit Definition in PQR Report
Adult Day Service	1 unit equals a half day. 2 units equals a full day.	1 unit = 1 day
Consumer Directed Care	1 unit equal 15 minutes	1 unit = 1 hour
Electronic Monitoring Systems	1 unit is equal to half month. 2 units is equal to full month.	1 unit = 1 month
Home Care Assistance	1 unit is equal to 15 minutes	1 unit = 1 hour
Independent Living Assistance	1 unit is equal to 15 minutes	1 unit = 1 hour

SASI Scoring:

SASI scores that consist of smaller sample sizes may have adverse impact on providers' scores.

Provider Quality Report: Provider Activity

¹Appendix A describes the methodology used to calculate historical average, ½ historical standard deviation, and identifies the color coding schema.

Appendix A: Methodology for SASI Analysis

Butler County ESP

Methodology for Calculating Historical Average, ½ Historical Standard Deviation, and Establishing Color Coding Schema

1. SASI counts and Yes/No answers for each SASI question from 22,050 SASIs collected over a two year period from January 1, 2021 through December 31, 2022 were aggregated for each calendar quarter (eight calendar quarters in total) by Provider and SASI type (Home Care Assistance, Home Delivered Meals, and Transportation).
2. The equation $[(\text{Total Yes})/(\text{Total Yes}+\text{Total No})]$ was used to derive the percent score for each SASI question by Provider per quarter grouped by SASI type.
3. One half standard deviation for each question was calculated by taking the standard deviation across all scores for Providers by quarter in which more than six SASIs were returned and dividing that number by 2, i.e. $[(\text{STDDEV})/2]$.
4. The average SASI score for each question was calculated by averaging the scores across all Providers and quarters in which more than six SASIs were returned.
5. The lower benchmark for color coding SASI scores was established by subtracting one half standard deviation from the mean for each question. SASI scores for a particular question that fall below that score are highlighted in RED.
6. The upper benchmark for color coding SASI scores was established by adding one half standard deviation to the mean for each question. SASI scores for a particular question that are greater than that score are highlighted in GREEN.
7. Color coding was first applied to the Quarter 1, 2021 Provider Quality Reports. Note that items highlighted in GRAY had less than 7 SASIs returned and therefore did not meet the color coding requirements. Items not highlighted scored less than or equal to one half standard deviation above the mean and greater than or equal to one half standard deviation below the mean for that respective question.

SASI Scores Color Coding Legend	
Top Performer	> ½ Historical Standard Deviation Above the Mean
Under Performer	< ½ Historical Standard Deviation Below the Mean
Average Performer	<= ½ Historical Standard Deviation Above and >= ½ Historical Standard Deviation Below the Mean
Insufficient Sample Size	< 7 SASIs contribute to score
