

As a Non-agency Independent Provider, you can work with MyCare Waiver clients. In our region (Butler, Clermont, Clinton, Hamilton, and Warren Counties), we work with MyCare plans: Aetna Medicaid Waiver and Molina Medicaid Waiver. In addition to being certified as a Non-agency Independent Provider, you have to be contracted with the client's MyCare plan. In AddnAide, you can match with Aetna clients. You can serve Molina Waiver clients as you match with them or as we share your information; however these clients are not currently in AddnAide.

Once contracted, please coordinate set up through client and their case manager.
